The CAUSE OF DEATH* was as follows:
Ms Doctor officiated child sick only few days started with cold turned into Pneumonia (duration) yrs. mos. ds. undertakers statement over phone, I did
CONTRIBUTORY (Secondary) not see the body)
(duration) yrs. mos. ds.

18. Where was disease contracted if not at place of death?
Did an operation precede death? Date of
Was there an autopsy?
What test confirmed diagnosis?
(Signed) A. W. Davis Coroner, M.D.
Feb 2, 1932 (Address) Am. Falls, Ida.

19. Place of Burial, Cremation, or Removal: Pocatello Idaho — Date of Burial: Feb 3, 1932
20. Undertaker: McHan Undt Co. — Address: Pocatello

A stillbirth must be registered both as a birth and a death. The date of death should be the date of delivery and the death certificate should further state, if known, the cause of the stillbirth and the period of utero gestation in months.

STATEMENT OF OCCUPATION.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient. e. g., **Farmer, Physician, Stenographer,** Compositor, Architect, Locomotive Engineer, Civil engineer, Stationary fireman, etc. But in many cases, especially in industrial employments, it is necessary to know (a) the kind of work and also (b) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (a) **Spinner,** (b) **Cotton Mill;** (a) **Saleman,** (b) Grocery; (a) Foreman, (b) Automobile Factory. The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc, without more precise specifications, as **Day laborer. Farm laborer. Laborer—Coal Mine etc. Women at** home, who are engaged in the duties of the household only (not paid **House-keepers,** who receive a definite salary), may be entered as **Housewife, Housework,** or **At Home,** and children not gainfully employed, as **At school** or **At Home.** If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business that fact may be indicated thus: **Farmer (retired 6 yrs.)** For persons who have no occupation whatever, write **None.**

STATEMENT OF CAUSE OF DEATH—Name first the DISEASE CAUSING DEATH(the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: **Cerebro spinal fever** (the only definite synonym is "Epidmic cerebrospinal meningitis"); **Diptheria** (avoid use of "croup"); **Typhoid Fever** (never report Typhoid pneumonia"); **Lobar Pneumonia; Bronchopneumonia** ("pneumonia," unqualified, is indefite); **Tuberculosis of lungs, meninges, peritoneum, etc., Carcinoma, Sarcoma,** etc., of ..... (name origin); "Cancer" is less definite; avoid use of "Tumor" for malignant neoplasms; **Measles; Whooping Cough; Chronic valvular heart disease; Chronic interstitial nephritis, etc.** The contributory (secondary or intercurrent affection need not be stated unless important. Examples: **Measles** (disease causing death), **29ds.; Bronchopneumonia** (secondary), **10 ds.** Never report mere symptoms or terminal conditions such as "Asthenia," "Anaemia" (merely symptomatic) "Atrophy," "Collapse," "Coma," "Convulsions," "Debility," ("Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart Failure," "Hemorrhage," "Inanition," "Marasmus," "Old Age," "Shock," "Uraemia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify as "PUERPERAL Septicemia," "PUERPERAL peritonitis," etc., all diseases resulting from childbirth or miscarriage. State cause for which surgical operation was undertaken. For VIOLENT DEATHS, state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, or HOMICIDAL, or as probably such, if impossible to determine definitely. Examples: **Accidental drowning; struck by railway train—accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide.** The nature of the injury, as fracture of skull and consequences (e.g. **sepsis, tetanus**) may be stated under the head of "Contributory."

DUTY OF LOCAL REGISTRARS—Mail all death certicates filed with you to the State Registrar on or before the fifth of the following month; keeping a copy of same for your local record.

Enter date of filing on the certificate immediately and give the certificate its registered number, beginning each year with number one. Carefully examine each certificate. before issuing the burial permit and call the attention of the undertaker or other person to any omissions. If the information cannot be secured, it should be plainly stated unknown.

Registrars should be careful to see that the medical statement of each death is supplied. If no physician attended the deceased and it is probable that death was due to unlawful or suspicious means, the case should be referred to the Coroner for investigation and statement of the cause of death; other deaths than above without medical attendance should be referred to the Health Officer (if a physician), but when there is no such health officer, and only in such cases, the local registrar may make the return upon the information of relatives or friends of the deceased having adequate knowledge of the facts.

Do not accept a certificate of death signed only by a midwife.

N. B.—WRITE PLAINLY, WITH UNFADING INK—THIS IS A PERMANENT RECORD. Every item of information should be carefully supplied. AGE should be stated EXACTLY. PHYSICIANS should state CAUSE OF DEATH in plain terms, so that it may be properly classified. Exact statement of OCCUPATION is very important. See instruction on back of certificate.
